

# POLYPROPYLENE ABSORBENTS FOR INDUSTRY AND SPILL RESPONSE

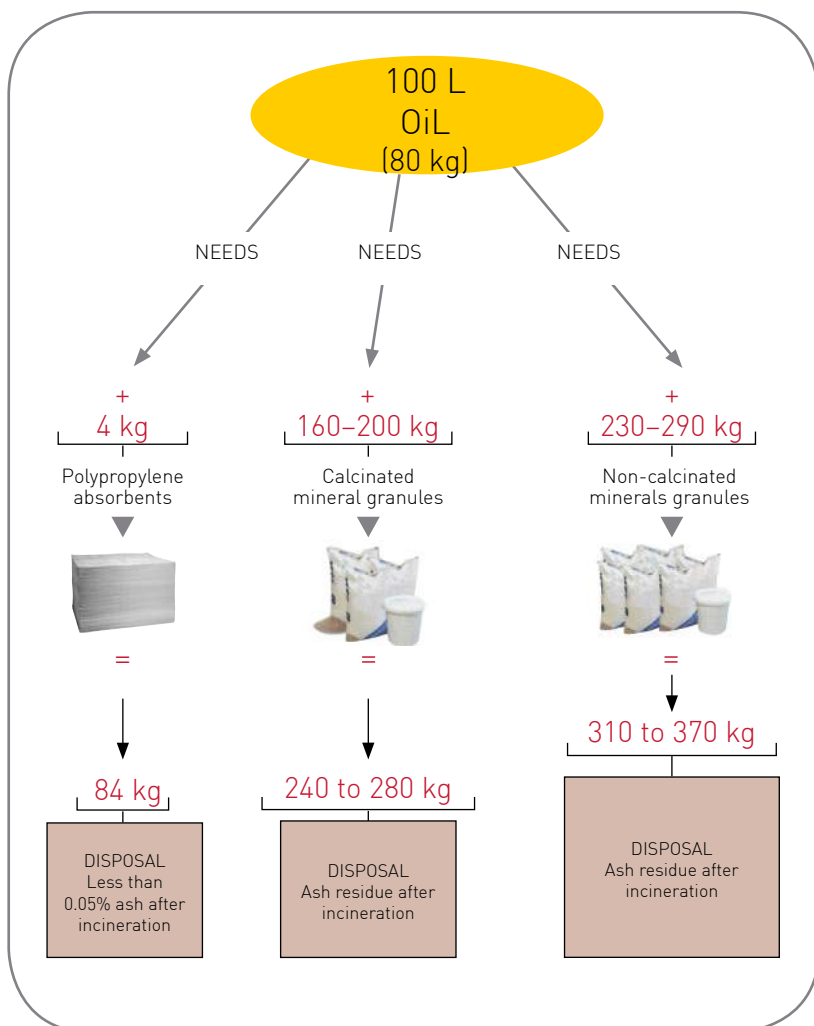

# Why Polypropylene absorbents?

## Polypropylene absorbents provide the following advantages:

- Exceptionally high absorbency (up to 25 its own weight)
- Selective absorption: Oil selective (doesn't absorb water), Universal and Chemical versions absorb almost all liquids
- Dust free
- No fibres in the liquid

## Quantity used and disposal costs decrease:

- Thanks to their lightweight, they are quick and easy to deploy, saving time and money
- No dust or mesh to clean-up
- Used proactively, they ensure slip-free floors
- Unlike with granules the amount used is easy to control

# Different versions for different applications:

## First

For the highest absorption speed and capacity when dealing with liquids on the ground or the surface of water. The absorbed quantity is proportional to the thickness of the product. Products for spill response are not perforated. For industrial applications, pads and rolls are perforated to optimize consumption and save money.

## First Hexadyn

For the highest absorption speed and capacity when dealing with liquids on the ground or the surface of water. The absorbed quantity is proportional to the thickness of the product. Products for spill response are not perforated. For industrial applications, pads and rolls are perforated to optimize consumption and save money.

## SM

This range is reinforced on the top side by a spunbond layer fixed by a hot calendering process to give the product durability. The 100% lint-free surface makes the product tear-resistant. Application: for wiping work surfaces and proactively deploying around/under leaking machines or vehicles.

## SMS

These products are reinforced, 100% lint-free on both sides, designed for long-lasting and heavy use and furthermore they are abrasion resistant and smooth.

## SMF

This reinforced lint-free and non-slip product is ideal for use on work surfaces and for areas of high foot traffic or even fork-lift truck movements. The 3 layers structure of the mat provides abrasion and tear resistance making the product hard wearing. Due to the liquid barrier and non-slip back, the mat is ideal for: protecting floors, work surfaces and for use when carrying out maintenance.

## Flakes in a net or PP cover

Absorbent socks are designed to contain and absorb spill or leak in liquids while absorbent pillows are used to absorb larger (deeper) spills or line drip trays.

Description	Dimensions	Sales Unit (SU)	Net weight per SU	Absorbency per SU	Oil Selective		All liquids	
					White	Blue	Grey universal	Yellow chemical
<b>Socks</b>								
Absorbent socks	Ø 7,5 cm × 1,20 m	Box of 20 socks	8 kg	125 l	WS1	BS1	GS1	CS1
Absorbent socks	Ø 7,5 cm × 3 m	Box of 8 socks	8 kg	125 l	WS2	BS2	GS2	CS2
Absorbent socks	Ø 7,5 cm × 18 m	Box of 1 sock	6 kg	94 l	WS3	BS3	GS3	-
<b>Pillows</b>								
Absorbent pillows	0,25 × 0,25 m	Plastic bag of 25 pillows	4 kg	63 l	WC25	BC25	GC25	CC25
Absorbent pillows	0,40 × 0,40 m	Box of 16 pillows	8 kg	125 l	WC1	BC1	GC1	CC1
Absorbent pillows	0,60 × 0,80 m	Box of 4 pillows	10 kg	156 l	WC2	BC2	GC2	CC2

### Socks for water-based liquids and weak chemicals

For use with water-based liquids only

12,5 cm × 1,2 m

1 roll perforated into 25 sections

1,7 kg

75 l

SAP25

Socks filled with super absorber and polypropylene fibres

7,5 cm × 1,22 m

Box with 30 socks

5,9 kg

120 l

KFS30

 **SMS** 3 layer structure- lint-free with both sides reinforced

Extremely durable and designed for "heavy duty" applications the product is reinforced on both sides, is 100% lint-free and abrasion resistant with a smooth surface finish.

Use proactively to:

- Line parts bins or drip trays
- Catch overspray from machinery
- Protec work surfaces
- Deal with day to day leaks & spills

# Spill Response

Booms, skirted booms, pillows and loose absorbent material

Products to enable you to contain and absorb spills of hydrocarbons, (Oil, gas oil etc.) on water or land based spills when it's raining.

Description	Dimensions	Sales Unit (SU)	Net weight SU	Absorbency per SU	Code Nr.
