**your
technology
partner**

vortex

Who we are

ICC Vortex is a Technology Partner for the industrial sector, representing more than 30 worldwide manufacturers of professional equipment, quality tools, certified personal protective equipment and oil spill response solutions, with professional customer service and after-sales support with a full set of permits under both local and international requirements.

vortex

Location

Since 2009, head office and warehouse are located in Almaty, Kazakhstan,

+7 (701) 523 30 52
sales@iccvortex.kz

In the west of country, in Atyrau, we are represented in the format of store and a warehouse.

+7 (701) 301 76 20
sales@vortex-west.kz

And in the near abroad, ICC Vortex is located in Tashkent, Uzbekistan.

+998 990 107 464
sales@iccvortex.uz

Advantages

Providing quality products at world producer prices

Company is direct representatives of our partners here locally, which allows our customers not to overpay for quality products and be provided with technical support and after-sales service.

Sufficient availability of quantity and assortment of products

We take risks and invest our money to ensure the continuous implementation of our clients' projects.

Workshop Service

Authorized by our partners, the workshop service is one of the most important structures of our business, provided with qualified technical personnel and the necessary equipment to fulfill its promise of after-sales service.

Customer Service

Every person in the company is involved and acts responsibly as a representative of our values, providing credibility and enhancing the company's attractiveness to customers and partners.

Measurable and monitored business processes in accordance with the international standard ISO 9001:2015

We strive for a quality level of business, so we have implemented and use a quality management system that helps us measure and control our business processes with customers and partners, taking into account possible cases and the influence of external or internal factors.

**Pipeline
Equipment &
Accessories**

**MRO
Products**

**Industrial
Safety**

**Oil Spill
Response**

Planetary gear driven torque wrenches, with continuous rotation while applying controlled torque

EST. 1995

Products of RAD Torque Wrench:

- Battery (30 – 15.000 Nm)
- Electric (60 – 16.500 Nm)
- Pneumatic (30 – 15.000 Nm)
- Smart Sockets (200 – 16.200 Nm)
- Calibration Systems (100 – 9.500 Nm)

Advantages the RAD Torque Wrench:

- Planetary gear
- Continuous rotation while applying controlled torque
- Motor is build right in the handle, so no longer the hassle of bringing a heavy and expensive hydraulic pump to the jobsite
- Much higher speed when compared to hydraulic torque wrenches
- Compact dimensions
- Ease of operation

EST. 2014

Torque wrenches with precise torque adjustment to meet all current requirements for bolted connections at an affordable price

Products of InnoTorc Torque Wrench:

- Battery up to 8.000 Nm
- Electric up to 8.000 Nm
- Torque Multiplier
- Torque Wrench with Lateral Gearbox
- Backup Wrench
- Valve lathe

Advantages of the InnoTorc:

- High torque performance and precision–Repeatability of $\pm 3\%$
- Brushless motors, fully encapsulated, with 30% higher performance
- The swivel joint between the drive unit and the planetary gearbox of the torque wrench, provides the ability to swivel the drive unit to find the optimum working position when positioning the torque wrench on the bolt joint.
- A tightening method with a controlled angle of additional rotation of the nut is available.
- Slim design and low weight

Hydraulic Torque Wrenches, precision-machined to give you accurate and control torque.

EST. 2003

Products of TorsionX Hydraulic Torque Wrench:

- Low Profile Torques Wrenches
- Square Drive Torque Wrenches
- Ultra Low Profile Torque Wrenches
- Hydraulic Torque Wrench Pumps

Advantages of the TorsionX:

- Compact design/uni-body housing
- Precision-machined
- Aluminum and steel components
- Multi-Directional Swivels
- Anti-jam torque release lever
- ISO-17025 Accredited

Manufacturer hydraulic bolt tensioners for tensioning screws, tie rods and stud bolts

EST.1966

Products of FPT:

- Hydraulic Bolt Tensioners
- Pumps for bolt tensioners and hydraulic
- Hydraulic nuts
- Grease Nut

Advantages of the FPT:

- Made to customer specifications
- Technical training courses and on-site trainings
- Effective technical and post-sales assistance service

EST.1989

Manual Torque Wrenches with higher performances

Products of TECNOGI:

- Digital Torque Wrenches
- Electromechanical Wrench and controller
- Adjustable Torque Wrenches
- Preset Production Wrenches
- Dial Torque Wrenches
- Torque Screwdrivers
- Torque Multipliers
- Calibration Equipment and Benches
- Interchangeable Heads

Advantages of the TECNOGI:

- Each torque wrench and screwdriver is tested and accompanied by a Declaration of Conformance, with international traceability through accredited laboratories
- UNI EN ISO 6789-1: 2017 standard

High-quality accessories for piping / civil engineering and plant construction as well as the entire utilities industry.

Products:

- Casing Spacers
- Casing End Seal
- LINK-SEAL®
- Corrosion / Isolation protection
- Pipe cleaning
- Flange gasket / isolation

EST.1968

Advantages:

- Certified according to ISO 9001:2015
- Member of associations:
DVGW, BFW, Figewa, OVGW, FHRK, IRO and Ghorfa

EST.1948

Products of the Sawyer MFG:

- Beveling machine
- Cutting Saddle Machine
- External, Internal and Hydraulic Clamps
- Chain Clamps
- Pipe Stands

Advantages of the Sawyer MFG:

- Certified according to ASME
- 70-plus years of manufacturing experience

EST.1959

Products of the WORLDPOLY:

- Butt Welding Machines
- Fittings & Fabrication Machines
- Workshop Pipe Saws
- Saddle Fusion Machines
- Pipe Rollers

Advantages of the WORLDPOLY:

- Certified according to ASME
- 60+ years experience in PE and HDPE pipelines
- Range of field and workshop equipment for HDPE pipe from 40mm (2") up to 3000mm (120") OD

*Flex tools have been a leader in grinders and polisher for almost 100 years, starting in 1922
Flex tools were the inventors of the handheld grinder with a flexible shaft in 1954.*

EST.1922

Application FLEX:

- Building & renovation
- Metalworking
- Detailing
- Stone working

Advantages of the FLEX:

- Precision-machined of parts from the best material to give more performance
- FLEX battery has Thermo-Tech heat management system to give longer battery life
- FLEX has a shock-resistant design, plus the electronics are epoxy sealed so everything inside is protected from the outside elements.
- Brushless motor with greater efficiency and a longer service life
- Robust motor body and gearbox body. Stable and robust steel gearbox as well as a spindle bearing protected by a metal cap also increase reliability and durability

EST.1919

Products of EIBENSTOCK:

- Hand-held drilling machines
- Diamond core drilling
- Construction Mixing / Stirrers
- Sanding / Milling / Smoothing
- Sawing / Cutting / Slitting
- Polishing
- Construction vacuum cleaners

Advantages of EIBENSTOCK hand-held drills :

- **Gearbox** robust aluminum housing
- **Mechanical safety clutch*** protection of the user
- **Motor** Durable, powerful
- **Torque pre-selection* Speed pre-selection*** precise, safe working
- **Additional handle** for better grip
- **Switch** with lock-on button for use in a drill rig
- **Collar** for drill rig application
- **Drilling spindle** precision-ground
- **Morse taper connection*** centralised, high power transmission

The industrial pneumatic tools designed for continuous usage under the most extreme conditions with high-speed material removal rate.

EST.1991

Products of the BANKO:

- Die extended
- Vertical
- Straight
- Die
- Angle
- Die angle

Advantages of the BANKO Pneumatic Grinder:

- The most efficient grinding with half the weight for an extreme material removal rate with minimum effort
- Much less insensitivity to variation of pressure, impossible to stall with the right hose and pressure
- Grinding with much less vibration due to grinding of the wheel at the constant right speed
- Oil-less grinding which enables clean surface and more environmentally friendly operation
- Ergonomically shaped and balanced design for less operator fatigue and easy control

Industry leader and global manufacturer of metalworking solution

EST.1879

Products of the WEILER:

- Cutting & Grinding wheels
- Flap disks
- Power brushes

Advantages of the WEILER:

- **Weiler Abrasives** is a proud member of FEPA and OSA organizations
- **Smooth outer layer** on cutting wheels reduces friction which translates to an effortless cut and less kickback.
- **Self-sharpening grain** retains high cutting performance throughout the life of the wheel.
- **Strong resin bond** delivers a long cutting life that keeps professionals productive.
- **Dual reinforcement** provides added strength for aggressive cutting.
- **A fast cut rate and consistent performance** at a great value.

The best solutions of pipe mechanical surface treatment

EST.1887

Products of the OSBORN:

- Pipe brushes
- Power brushes
- Industrial brushes
- Maintenance brushes
- Polishing Tools & Compounds
- Roller brushes

Advantages of the OSBORN:

- 130 years of experience in engineering expertise and production skills.
- Production facilities in 13 countries, on 4 continents, as well as official representative offices in more than 120 countries.
- 10 000 standard and more than 100 000 individual solutions (commercial and household)

EST.1974

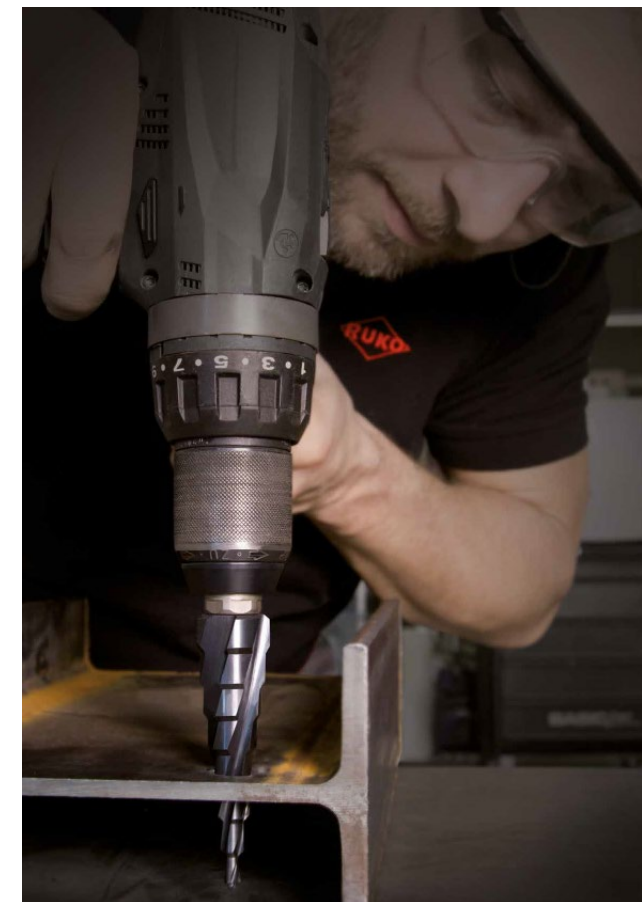

Leading manufacturer of precision tools for metal cutting

Products:

- Twist drills
- Sheet drills
- Step drills
- Taper and deburring countersinker
- Machine taps
- Hand taps
- Core drills
- Rotary burrs
- Hole saws
- Saws
- Wood drills
- Concrete drills

Advantages:

- 130 years of experience in engineering expertise and production skills.
- Production facilities in 13 countries, on 4 continents, as well as official representative offices in more than 120 countries.
- 10 000 standard and more than 100 000 individual solutions (commercial and household)

Professional hand tools

Advantages:

- Full production cycle plant
- Own metallurgic plant
- In-house design office
- 100 years of experience
- Assistance in designing workplaces according to the 5C system
- The best price/quality ratio in the industrial tool sector

EST.1919

Products:

- Wrenches
- Ratchet, sockets and accessories
- Pliers, Screwdrivers
- Insulated tools, Cable cutting, Stripping & Crimping tools,
- Tin snips and bolt cutters
- Hammers, punches and chisels
- Workshops equipment
- Pneumatic tools
- Manual torque wrenches
- Bike tools & Motorcycle tools
- Safe tools at height
- Tools sets

*Manufacturer of hand tools
for maintenance of industrial machinery and vehicles, technological
equipment and railway transport*

EST.1997

The consumers of the SATA products:

- Auto maintenance
- Auto repair
- MRO
- Service trades

Advantages:

- Full range of hand tools
- Meet or exceed ANSI / DIN standards
- ISO 9001 certified
- SATA provides lifetime warranty to all tools (unless otherwise stated)

X-Spark® Non-sparking Safety Tools

EST.1983

Products:

- Beryllium Copper and Aluminum bronze non sparking tools
- Titanium tools
- Special steel tools
- Insulated tools
- Stainless steel tools

Advantages:

- X-Spark certified by British Royal UKAS, Germany TUV and GS certification, and U.S FM
- 138 Patents for many innovations
- Almost 40 years experience
- Solutions for Industries, oil and gas, mines, shipyards, pharmacy, aerospace, etc.

High Pressure Industrial Hydraulic Equipment

Products of BVA Hydraulics:

- Hydraulic Cylinders
- Hydraulic Pumps
- Pump & Cylinder Sets
- Bottle Jacks
- Shop Presses
- Hydraulic Hoses and Couplers

Advantages of the BVA Hydraulics:

- Made to customer specifications
- BVA products are warranted to be free of defects in materials and workmanship
- All Cylinders are Test to Exceed Industrial Standards ASME B30.1
- Control production and management by ISO9001

High-tech, safety hoists and trolleys

EST.1932

Products of KITO:

- Electric chain hoists
- Hand Chain-hoists
- Lever-hoists
- Electric Wire Rope hoists

Advantages of the KITO:

- Protection against unintentional freewheeling under load.
- Maintenance free bearings for a longer service life.
- Two retaining pawls each with double-pawl spring system for increased safety.
- Planetary gear system enables seven-times-faster lifting when repositioning an unloaded hook (up to 10% of WLL)
- Fine-toothed precision gearing to reduce required pulling force

EST.1967

Advantages of the CATTINI:

- Lightweight and easy to handle
- Folding handle
- Equipped with remote control
- Pneumatic tyres for any surface

Products of CATTINI:

- Mining Jacks, capacities from 60t to 200t
- Mining Jack Stands, capacities from 20t to 75t
- Pneumatic Jacks
- Trolley Jacks
- Jacks for trucks and heavy vehicles
- Pit Jacks
- Axle Stands

Automatic portable line boring machines

EST.1997

Capabilities of ELSA:

- Line Boring and Overlay Welding
- Creation of Seats for Seeger Rings
- Facing of Orthogonal Planes
- Threading, Drilling and Tapping

Advantages of the ELSA portable line boring machines:

Permit on site machining, thus reducing downtime and transport costs. In brief, they offer:

- High flexibility
- Possibility to operate in small spaces
- Precision
- Repeatability over time
- Downtime reduction
- Transport costs reduction

Lubrication Equipment

Products of MECLUBE:

- Grease Distribution
- Oil Distribution
- Exhausted Oil Aspirators
- Exhausted Oil Drain Units
- Pressure Sprays – Washing
- Anti-Freeze Windscreen Liquid Distribution
- Tyre Inflators
- Hose Reels
- Brake Bleeders – Clutches
- Air Operated Double Diaphragm Pumps

Advantages of the MECLUBE:

- Pneumatic motion reverse device, without cams and springs
- Reduced number of wearing parts
- Big quantity of grease supplied at low air consumption
- High operating pressure
- Aluminum alloy body pump with electrolytic treatment that ensures very high corrosion strength
- High stressed elements in Fe 420 steel

Tanks for storage and transportation of petroleum products

EST.1960

Products of the EMILIANA SERBATOI:

- Transport tanks
- Refuelling Tanks
- Underground tanks
- Fuelling system
- Fuel Monitoring

Advantages of the EMILIANA SERBATOI:

- Quality system is certified by the TÜV in compliance with the UNI EN ISO 9001:2015
- Collaborates with various governments to the fire safety
- Tanks approved by ADR

EST.1985

*One of Europe's leading manufacturers of eyewash station
and emergency showers*

Products:

- Emergency showers
- Eyewash stations

Advantages:

- In-house designs of products
- Certified by DVGW, ANSI, DIN EN

Manufacturer of high-end gas detection equipment

EST.2018

Products of the WatchGas:

- Portable detectors
- Transportable detectors
- Fixed detectors - Control panels
- Fixed detectors - Transmitters

Advantages of the WatchGas:

- Included in the Republic of Kazakhstan measurement system
- Certified by ATEX
- 1000+ gases that are detectable with the WatchGas detectors

EST.1992

Advantages:

- Non-toxicity - does not emit toxic gases when disposed of by incineration, and the residue is less than 0.05%.
- Savings on Disposal Costs - can be used as fuel for industrial solid fuel furnaces

Products:

- Spill Kits
- Non-woven sorbents
Pads, Rolls, Socks, Booms

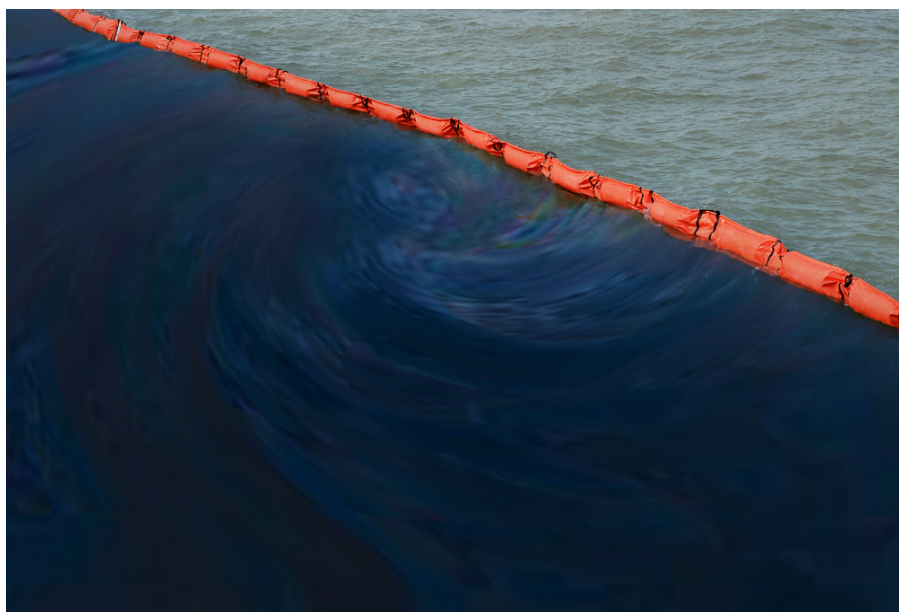

EST.1986

Products:

- Flexible berms
- Containment booms

Advantages :

- Certified by ISO standards
ISO 9001, ISO 14001
ISO 45001
- Professional body accreditation and memberships
British safety industry federation
UK Spill association

EST.1998

Products:

- Drum Spill Pallets
- IBC Spill Pallets
- Spill Trays
- Spill Flooring
- Container bins & Cabinets

Advantages:

- Full in-house design, R&D and mould making capabilities
- Certified by ISO 9001, ISO 14001 and ISO 45001
- Professional body accreditation and memberships:
British plastic federation
Scottish Engineering

Safety storing and transferring flammable liquids
