Box joint plier SEGOGRIP XL

Heavy duty pliers designed to firmly grip large diameter pipes up to 3.1/2" (102 mm). Indispensable for pipe installation and maintenance work. Pliers with larger jaws allow a stronger grip than other pliers on the market.

Maximum performance

Induction in the jaws to reinforce the teeth, increasing wear resistance and extending tool life.

Slide with 14 positions

allows to change the position easily according to the needs of the job.

Ergonomic shape and increased safety

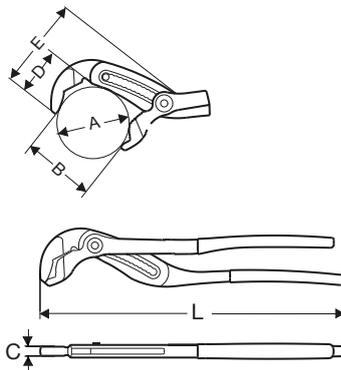

Reduces the risk of pinching fingers when gripping large diameter pipes.

Extreme durability

Manufactured from chrome vanadium steel. Hardened and tempered body for improved tool performance.

Plastic-coated handle

with non-slip rubber for greater comfort and better power transmission.

Guaranteed grip on any surface, with three points of support.
